Vijay Sadashivaiah

Ph.D. Student in Computer Science

sadasv2@rpi.edu • vjysd.github.io

Education

Rensselaer Polytechnic Institute — Troy, NY
- Doctor of Philosophy in Computer Science — January 2021 - Present
- Master of Science in Computer Science — January 2021 - Present
- GPA: 4.00/4.00

Johns Hopkins University — Baltimore, MD
- Master of Science in Biomedical Engineering — August 2015 - May 2017
- GPA: 3.87/4.00

PES Institute of Technology — Bangalore, India
- Bachelor of Engineering in Electrical Engineering — August 2011 - May 2015
- Visiting student at Massachusetts Institute of Technology — 2014
- GPA: 9.32/10.00

Research Experience

Rensselaer Polytechnic Institute — Troy, NY
Research Assistant, Advisors: Profs. James Hendler and Chris R. Sims — January 2022 - Present
- Exploring research ideas at the intersection of explainability, transfer learning and reinforcement learning

IBM Research — Remote
Summer Extern in Trustworthy AI and Reinforcement Learning — May 2021 – September 2021
- Worked on multi-armed bandit and reinforcement learning based approaches to improve transfer learning
- Explored visual explanation techniques to understand transfer learning algorithms

Lieber Institute for Brain Development — Baltimore, MD
Staff Scientist in Machine Learning and Data Science — August 2017 - January 2021
- Explored novel data-driven methods on heterogeneous datasets to identify the underlying biological pathways involved in Schizophrenia and other neurodevelopmental disorders
- Applied transfer learning based methods to extract relevant biomarkers in neuroimaging data

Johns Hopkins University — Baltimore, MD
Research Assistant in Neuromedical Control Systems Lab — September 2015 – May 2017
- Spearheaded collaboration between 3 principal investigators for masters thesis
- Constructed probabilistic, functional & mechanistic models of a mammalian nerve fiber and quantified different interactions to test the performance of electrical nerve stimulation in treating chronic pain

École Polytechnique Fédérale de Lausanne — Lausanne, Switzerland
Summer Researcher in Laboratory of Sensory Processing — June 2015 - August 2015
- Accepted into a highly competitive international research program (5% acceptance rate).
- Analyzed voltage–sensitive dye images of mouse neocortex to study the neural circuits involved in goal-directed sensorimotor interactions

Massachusetts Institute of Technology Cambridge, MA
Visiting Student Researcher in Camera Culture Lab June 2014 - September 2014

- Designed a high–speed imaging system to capture light in motion (Bachelor's thesis)
- Improved the depth resolution of the conventional imaging system using multi-frequency light sources

Skills

Programming: (Proficient) Python, MATLAB, R, Bash, LaTeX; (familiar) C, Java, Perl
Frameworks and tools: Pytorch, TensorFlow, Keras, CUDA, MPI, Git, NEURON, Docker
Relevant courses: Learning Theory, Information Theory, Machine Learning (ML) from Data, ML and Optimization, Deep Learning, Parallel Computing, Probability Theory, Image Processing

Publications

Institutional & Community Experience

Center for Social Concern – Johns Hopkins University Baltimore, MD
Volunteer November 2015 – September 2020

- Refurbishing and repairing old computer systems before donating them to local schools in Baltimore
- Teaching basic computer skills like programming and word processing to students in 3rd through 5th grade

Graduate Representative Organization – Johns Hopkins University Baltimore, MD
Advocacy Chair May 2016 – May 2017

- Organized town halls every quarter with university administration to advocate graduate student needs and issues
- Facilitated discussion of topics including student healthcare, maternity leave and dining options on campus
- Assisted Social Chairs in organizing social and cultural events on campus

Varsity Field Hockey – PES Institute of Technology Bangalore, India
Goal-Keeper May 2012 – May 2014

- Participated in practices, weekly drills, competitions, and community service events
- Drafted for state team trails at 2013 inter-collegiate tournament

Awards and Fellowships

Distinguished Biomedical Engineering Fellowship - Johns Hopkins University	2015 - 2017
Data Incubator Challenge (Semi-finalist) - The Data Incubator	2017
Foundation Leenaards' Summer Research Fellowship - EPFL	2015
University Merit Scholarship - PES Institute of Technology	2011 - 2015
"Code Something that Matters" Scholarship - Vecna Robotics	2015
TEQIP Travel Grant - PES Institute of Technology and Government of India	2014, 2013
Vertech City Challenge (Global finalist) - Vertech Symposium	2014
Best Student Project - IEEE International Conference on Impact of E-Technology	2014
Intel Global Challenge (Global finalist) - UC Berkeley	2013
Biotechnology Entrepreneurship Student Teams - Department of Biotechnology, India	2013
Go Green in the City (Global semi-finalist) - Schneider Electric	2013

Interests

Rock Climbing, Running, Hiking, Backpacking, Homelabbing and recently into Swimming
